

Kumamoto University International Fund, managed by Domonkai Department of Radiology Kumamoto University

The Kumamoto University International Fund, managed by Domonkai Department of Radiology Kumamoto University has generously donated a fund to the XIX Symposium Neuroradiologicum. The Symposium President has decided to use the fund to encourage young Japanese neuroradiologists (under the age of 38) to attend the XIX Symposium in 2010.

The Symposium Scientific Committee will select the 20 best papers submitted by young Japanese neuroradiologists whose accommodation expenses and registration fees will be covered by the fund.

I encourage young Japanese neuroradiologists to present their work at the Symposium by submitting abstracts through the website www.symposiumneuroradiologicum.org specifying the first author's date of birth.

I look forward to welcoming you to Bologna.

Marco Leonardi, MD
President, XIX Symposium Neuroradiologicum
Bologna, 4-9 October 2010
